

Correction

Dr. Suttasinee Petskul has informed the editor to correct the sentence and reference number in the article “Prophylactic Low-Dose Ketamine to Prevent Post Anesthetic Shivering in Orthopedic Surgery: A Randomized-Controlled Study” published in J Med Assoc Thai 2016, Vol. 99, No. 4, page 400-5 as follow:

1) from unable to be transferred to the recovery room post operative used of a respirator,
to unable to be transferred to the recovery room, post operative used of a respirator,
in the **Material and Method** in page 401

2) from and core hypothermia⁽⁷⁾. to and core hypothermia⁽²⁾.
in the **What is already known on this topic?** in page 404
